A photograph showing three pairs of safety eyewear and a hammer resting on a light-colored wooden surface. The eyewear includes clip-ons, safety glasses, and sports goggles. The hammer has a wooden handle and a metal head.

Clip-ons Safety Eyewear Sports Goggles 2024

Special Note about our Safety Frames:

Our safety frames comply with applicable specifications of health and safety requirements provided by the European Directive 89/686 EEC and by EN 166:2001 (Personal Eyecare protection: Impact resistance)

Since our safety eyewear is intended for impact resistance and dust protection, the materials used are sensitive to strong cleaning agents that can compromise their tensile strength.
