Self - Scriptable Insert for Diving Mask

The scriptable insert is attached to the front pane of the diving mask by fixing it with the clear suction cup. The nylon insert is easy to remove and reposition. *The insert is only suitable for single pane diving masks.*

Measurements of the insert:

Lens width: 41 mm

Lens depth: 45 mm

Total width: 117 mm

Top tip: Avoid using antifog on the glass where the suction cup adheres.

SKU:

11/137EBP Insert with suction cup attachment.
Mask not included.

Self-scriptable swimming goggles for *Kids*

The scriptable swimming goggles are ideal for kids between 3 and 7 years.

Eyesize: 40mm

The lens is kept in place by the soft eyeseal and the hard plastic rim of the goggle.

Remove the plano lens and the eyeseal by pushing them to the front of the goggle.

Available in green and/or blue.

SKU:

11/2160 Blue

11/2161 Green
